

The KidsMatter Framework forms the cornerstone of our Social and Emotional Learning program

KidsMatter Primary and Early Childhood provide a flexible, whole-school approach to improving children's mental health and wellbeing for primary schools. It can be tailored to schools' local needs. The KidsMatter Framework provides the proven methods, tools and support to help schools work with parents and carers, health services and the wider community, to nurture happy, balanced children.

Through KidsMatter Primary, we undertook a three-year cyclical process in which reviewed our practice, planned and took action to be a positive community; one that is founded on respectful relationships and a sense of belonging and inclusion. Working through the KidsMatter Framework, our school promotes:

- social and emotional learning (including evidence-based social and emotional learning programs)
- working authentically with parents, carers and families
- support for students who may be experiencing mental health difficulties.

This ensures a positive school community and respectful school culture for students, staff parents and carers.

Mental Health Matters (information sheets)

[These information sheets](#) can assist parents and carers who have specific questions about issues related to KidsMatter Primary and to children's mental health.

The information sheets can be downloaded free of charge below. Full sets are also available to purchase through our [online shop](#).
