Contributions and Charges 2022

The following list is a breakdown of contributions the school may ask for throughout next year. This should be seen as a guide to assist parents with their financial planning for 2022. These figures are as accurate as we can be when planning for future activities.

<u>VOLUNTARY CONTRIBUTIONS</u>	<u>CHARGES</u>	<u>PERSONAL ITEMS</u>
<p>In accordance with the Department of Education and Training’s Contributions, Charges and Fees Policy September 2001, schools can request up to a maximum contribution of \$60 for years K-6.</p> <p>A Contribution is ‘voluntary’ and the funds are used towards the cost of materials, services and facilities used by students in the educational program.</p> <p>Contributions collected at this school contribute to: Classroom resources, e.g. computer equipment, maths resources, reading books, physical education and art equipment.</p>	<p>The term ‘charges’ refers to the provision of extra cost optional activities which form part of an education program and which voluntary contributions do not cover. All of the following are optional and if no payment is received, an educational activity with a similar outcome will be provided to that student.</p> <p>The 2022 extra cost optional activities, which have been approved by the School Council, are as follows. The estimated costs provided are at an upper limit and will not exceed this amount. If a particular event does not transpire within the school year no charges for that event will apply. The School Council has approved all charges.</p>	<p>These items (as per attached list) have been approved by the School Council as being recommended by students for personal use in the educational programs provided by this school.</p> <div style="text-align: center;">  </div>
