

Term Report

Belmay Primary School

Term 3 marks the beginning of the Belmay TheirCare journey. We've only had one term but already have a lifelong number of memories through fun activities, engaging learning experiences, outdoor play and so much more! You can read all about it in this term overviews.

Outdoor Play

This term we tried to get out as much as we could! We enjoyed our amazing playground and the outside environment and even made a running competition that we compete in weekly.

We also enjoyed exploring our new sports equipment playing soccer, football, and cricket!

Activities

This term we participated in a wide range of fun and inclusive activities. This includes beautiful arts and crafts, magic tricks, dress ups, boardgames, cooking and theme-based activities such as Father's Day, book week and sports day.

About the program

Our program changes weekly and includes a diverse range of activities, most of which are suggested by the students or created to include student interests. By getting to know our students through having ongoing discussions with them about their interests allow us to create a fun and engaging weekly program for them.

Some of the student suggested activities include:

- Cooking club
- Making Jewelry
- Café Corner
- Floor is lava
- Running Competition
- Making a Fairy Garden

Coordinator Information

Term 3 was the opening term for our beautiful centre. We said hello to our new coordinator, Jaime who worked side by side with our Area Manager, Sarah to learn the ins and outs of being a great coordinator.

Jaime is now working solo and enjoying the one-on-one time she is getting with the students.

For the past 9 weeks that Jaime has been a coordinator at this center, she has able to connect with the students on a deep level as she is knowledgeable with current trends, games, and lingo. With her knowledge, Jaime has been able to make effective weekly programs with ease through incorporating student's interest.

Term 3 Memories
